Their products are indigenous and organic without artificial additives; the current portfolio includes moringa soup, moringa cereal, moringa teabags, assorted dried local vegetables and fruits, and canned, free-range chicken and goat meat.</p>

<p>1530hrs – 1615hrs</p>	<p>MASTERCLASS: Agriculture As A Business (AAAB)</p> <p>How To Prepare Small to Medium Agribusinesses to Attract Venture Capital</p> <p>Venture capital – or VC – is a form of equity financing. It involves private investors providing finance to start-up companies and existing SMEs with a view to gaining a return on that investment. There are many small to medium scale agri-businesses scrambling for the attention of investors. At the same time, investors are understandably risk-averse.</p> <p>This Masterclass will help smallholder farmers (women and youth) to appreciate the business side of Agriculture. If done well, with expertise that will be imparted by our Masterclass Venture Capital Guru, Agriculture will not only contribute towards food security but also become a source of great income and wealth creating venture.</p>	<p>PRESENTER: Ms Musanchi Simbeye</p> <p>PROFESSIONAL PROFILE</p> <p>Musanchi Simbeye is Finance Consultant with over 15 years' experience providing consultancy and advisory services to local and international companies in various sectors (agribusiness, construction, logistics and microfinance institutions). She's worked mostly in the Zambian private sector with liaison and sound understanding of public processes and policies for application of funds from financial institutions within Africa, Asia, USA & Europe. Musanchi's skillsets are in strategic management, leadership and technical oversight for projects in agribusiness, capital raising, supply chain advisory and green economy investment opportunities that lean towards climate change mitigation and adaptation.</p>

Welcome Tea/Coffee Break
0800hrs – 0830hrs

<p>0830hrs – 0845hrs</p>	<p>JICA – Company Presentation</p> <ul style="list-style-type: none"> • Topic: Balanced Economy, beyond Mining – Promoting Agri-Development in Zambia • Speaker: Matsui Hayao 	<p>JICA Brief Company Brief Profile</p> <p>Japan International Cooperation Agency (JICA) is the executing agency of Japanese Official Development Assistance (ODA) which assists and supports developing countries to resolve various issues they are facing. Funds that are used in Japanese ODA are supported by the taxes paid by Japanese people. JICA is in charge of implementing the majority of bilateral Finance and Investment Cooperation including Technical Cooperation, Finance and Investment Cooperation and Grant Aid in an integrated manner. JICA is currently working in over 150 countries and regions and having nearly 100 Overseas Offices</p>
<p>0845hrs – 0900hrs</p>	<p>WWF Zambia – Company Presentation</p> <p>SPEAKER: Ms Nachilala Nkombo, Country Director, WWF Zambia</p> <p>Topic: Partnering for Sustainable Productivity</p> <ul style="list-style-type: none"> • How can stakeholders collaborate to enable Zambia to produce nutritious food in a sustainable manner. • While agriculture is a critical contributor to rural development and job creation and the GDP, the environmental impacts of farming are high. We need to promote responsible farming as well as responsible consumption. 	<p>WWF Zambia Company Presentation</p> <p>We promote sustainable agriculture and sustainable fisheries. We support best practice solutions on farms and along the supply chain.</p>

<p>0900hrs – 0915hrs</p>	<p>ETG Company Presentation/CASE STUDY</p> <p>Sponsor Limelight (Video Advert)</p> <ul style="list-style-type: none"> • Speaker: Mr. Rajendran Ganapathi 	<p>ETG Company Brief Profile</p> <p>ETG set foot in Zambia in 2003 and since then has structured a business operation that addresses the whole agricultural value chain. This has been made possible through specialized companies within the ETG group from agricultural inputs supply, commodity buying and processing into finished products.</p>
<p>0915hrs – 1000hrs</p>	<p>KEYNOTE PANEL SESSION 3:</p> <p>Investment Focus On Post-Harvest Technologies & Agro processing</p> <p>It will be an incomplete mission to promote agri-development, access to alternative financing for smallholder farmers etc if we do not address some of the challenges faced after production. With crop losses of between 30 to 40 percent in Zambia, and up to 50 percent across Africa, access to adequate food in many smallholder farming households is an unforgiving challenge, and income losses inevitable. This is especially so as smallholder farmers hardly produce enough surplus, and any loss or waste impacts not only their food security but also their incomes.</p> <ul style="list-style-type: none"> • The session will deliberate on investments on post-harvest technologies, including training programmes to smallholder farmers on how to reduce post-harvest losses. • Some of the issues to be explored include investing in storage and agro-processing hubs, it may even just be for semi-processing to preserve produce shelf life. • Is the Government doing enough to achieve this, if not, what are Private Sector agri stakeholders doing about it? • This Session is a call for financiers, local, regional and global agri-finance players to support and avail resources for such post-harvest developments, storage, technology, processing. 	<p>PANELISTS</p> <ol style="list-style-type: none"> 1. Ms Slyva Banda, CEO, Sylva Food Solutions/Absa 2. Hon. Given Mungomba, National Technical Advisor, Farmers Development Cooperative Union (FDCU) 3. Ministry of Agriculture, Representative To Be Advised 4. Zambia Association of Manufacturers (ZAM) 5. David Chikoye, Country Convener - Zambia, International Institute of Tropical Agriculture (IITA) <p>MODERATOR: Mr Sandy Chiluba, Managing Director, Hype FM</p>
